RESTAURANT IN CONNECTION

All highway crossings are by law protected by signs, and they are only dangerous when the driver of the automobile makes them so. The most deadly mistake is if motorists will take a small part of the care they exercise in turning on a city street. It is the motorist's carelessness that makes them dangerous. The train has right of way. Everyone knows what may happen if the plainly seen warning are disregarded at a point where the motor car can stop while the train cannot.

The surprising part of it also is that safeguards and precautions erected by the railroads are so often entirely ignored. Time after time newspaper reports show that crossing alarm bells, barrier gates and even watchmen waving "stop" signals mean nothing to the man in the

motor car who is determined to beat the train to it.

Coroners' juries are usually more discriminating and put the blame where it belongs, but the general public seems to be the usual newspaper heading, "Train Crashes into Motor Car," starts out with the impression that the train must necessarily be at blame, when, as a matter of fact, a fairer statement of the case would be "Another Auto Gets in Path of Fast Train." Quite as often, too, the heading should read, "Flying Auto Dashes into Moving Train." Frequently the auto strikes the train well behind the engine, a convincing indication that the motorist too frequently treats the railroad crossing with the same casual notice that he gives the intersection of a quiet country road.

Wednesday Half-Holiday.

During the months of July and August all places of business in Stony Plain will close Wednesday afternoon at one o'clock.

LOCAL NEWS.

Mr and Mrs Wight returned on Saturday from a motor trip to Vermilion.

Miss Cecilia Rivest and Miss Alt returned yesterday from a week's visit with friends at Morinville.

Mr and Mrs Ph V. Kulak made a motor trip over the weekend to Banff.

Young Ph Trapp was operated on for appendicitis at the Misericordia Hospital last week, and is doing as well as could be expected.

Mr and Mrs G. W. Donaldson and Mrs Martin of North Bay, Ontario (Mr. Donaldson's sister) are at present making a tour of the Coast cities. Mr. Donaldson's harness shop will be closed till his return.

Mr. Giles Clarke, who had been visiting his brother Franklin Clarke at Jasper, arrived home yesterday.

Mr. Baker, the manager of the new Pool elevator here, has rented the Jacob Miller mansion on Fourth St. west, and has taken up his residence there.

Mr. H. A. Mundt, who has been in charge of the local Brooks elevator since its establishment here, has been promoted to the position of manager of the Brooks elevator at Bruderheim.

Mr. Geo F. Harris, the well-known insurance agent, paid Stony a visit Saturday afternoon.

Mr. Robertson now has the new Gillespie elevator ready to operate and expects a big season's business the coming fall.

Mr. M. Zucht is at present engaged in railroad work at Gainford, on the Canadian National line.

A detachment of the Salvation Army band enlivened proceedings at a Main Street corner on Saturday evening.

R. C. services will be held in the Town Hall on Sunday next at 11 a.m.

Yesterday morning the Royal Restaurant was opened under new management, Mr. Emil C. Miller having acquired the interests of the Celestial proprietor, Wong Sing. The new proprietor, Mr. Miller, is a son of Mr. Phil Miller and is well known here. He has lived in Detroit for the past four years. Those patronizing his new place may rely on having a first-class meal at a reasonable price.

If your eyes bother you, or you suffer from headaches, why not have your eyes attested to by an expert? M. M. Mecklenburg, eye specialist, 6159 101st St., Edmonton.

NOXIOUS WEEDS !

Your co-operation with Provincial and Municipal authorities is solicited in the control and eradication of weeds. Keep your fields and roadsides free from these unsightly and costly pests.

Weeds reduce the yield and lower the grade of your grain, rob the soil of its fertility and cost money in dockage and transportation. Approximately 6,000 cars were required to haul the screenings from one season's crop in Western Canada to terminal markets. Will you not help to reduce this enormous loss?

Give your local weed inspector and the Provincial Field Supervisor in your district every possible support in dealing with the weed problem.

Industrial Development In Canada

Possibilities in the future development of industries in Canada, and the utilization of the natural resources of the Dominion, the essential raw materials in such development, and the manner in which all the people can assist in such development and expansion of manufacturing in Canada, formed the subject matter of a recent address by Hon. Charles Stewart, Minister of the Interior, before the Young Men's Section of the Winnipeg Board of Trade, which is worthy of the most serious consideration, and especially so because it is so simple, so thoroughly sound, and so applicable to all parts of the country.

Mr. Stewart did not vision a future Canada with a limited number of great manufacturing centres, possessing many huge plants, located in certain sections of the country, with gigantic outputs supplying the home market and providing a large export trade, and largely controlled by a few corporations or wealthy individuals. Undoubtedly Canada has already created a number of such large industries and will continue to do so as the population and wealth of the Dominion grows. The idea submitted by Mr. Stewart for serious consideration was along quite another line.

Mr. Stewart sees in Canada, east, central and west, in the north as well as in the southern portion, a country of vast resources and of varied character. Many of these natural resources of a similar nature are to be found in widely separated sections, and he feels their development should be general and that they should be tapped at many points rather than attempting to supply the requirements of the people from one or two places located far away from the mass of consumers.

In other words, Mr. Stewart advocates study of a plan which contemplates the establishment of industries in numerous centres to utilize those natural resources which may be found adjacent to such communities and thus supply the local and regional demand instead of transporting such goods long distances from other countries or far distant parts of Canada. Such a plan, surely carried out, would not only result in huge savings in the aggregate to the public, but would lead to the development for use of resources now lying dormant, would build up numerous small industrial towns, provide more employment, and materially assist in solving the problem of unemployment which frequently becomes acute in certain parts of the Dominion by reason of the seasonal nature of the occupations of a vast majority of the people.

In presenting his thought on this subject, Mr. Stewart expressed the opinion that bodies like boards of trade should take up the close study of the raw materials of their districts; and of the markets for manufactured commodities. Such local studies would, he believed, reveal many possibilities for starting new industries at appropriate points. Statistics on the importation and movements of manufactured commodities had led to the conclusion, he said, that many of the articles could be made at home, and this also applied to goods transported from other parts of Canada in many cases unnecessarily, because the same thing could be made on the ground. The possibilities of manufacturing locally had been brought home to many towns and cities, largely through the initiative of enterprising public bodies like the board of trade, assisted by the facts on file in the department at Ottawa. Raw material, as far as possible, should, he contended, be prevented from leaving Canada so that the country's resources to the greatest extent might be utilized for those living there.

In all such endeavors, boards of trade everywhere, Mr. Stewart stated, would have the assistance of the government in a whole-hearted way. His department was always willing to co-operate with any public body in placing at the disposal of interested persons information of the country's natural resources. Endeavor of the kind should be available always, and would be sent to any locality where these services could be of assistance.

The policy suggested by Mr. Stewart should make a particularly strong appeal to boards of trade throughout the three prairie provinces, which, up to the present time, have been so largely dependent upon the other provinces and foreign markets for the manufactured goods which our people consume in such large quantities, and for which we have been obliged to pay high prices because of the enormous distances these goods have had to be transported from the point of manufacture.

That Mr. Stewart's idea is sound, is borne out by the experience of many towns and many industries. Some of the most flourishing industrial towns and cities secured their start through the establishment of a comparatively small local plant utilizing some raw material found in the locality, and history is filled with instances where these small local industries have, under careful but progressive management, grown into what are now classified as among the great industries of the country. Hundreds of such instances, both in Canada and the United States, could be given.

There is more fiction in fact than in life is made up of getting and giving and forgetting and forgiving.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy remedy. Please do that—for your own sake.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Special Cameras For South Polar Flight

One Will Automatically Develop and Deliver Strips Of Film

Photography is to play an important part in the South Polar flight to be made by Captain Scott. Two special automatic cameras are being constructed, one to take pictures of the sun as an aid to navigation, and the other to record each mile of the flight.

While the flight is in progress the first camera will automatically develop and deliver strips of film. The second camera will be attached to the bottom of the plane and will follow the path to the Pole, recording from a height of 5,000 feet a strip of the Polar plateau eight miles in width.

COMPLETELY RUN DOWN

Symptoms That the Blood Is Thin Should Not Be Neglected

Weak, run-down, lacking strength, energy, poor appetite, digestion disturbed, constipation, etc., are symptoms noticed by a great majority of people who have been benefited by the use of Dr. Williams' Pink Pills. These tonic pills are described in the accompanying article, and if you have any of these symptoms you should give them a trial. Their great value in cases of this kind is shown by the statement of Mrs. James A. Abbotts, Brockville, N.Y., who says: "I was run down in health. My blood was thin and watery, and my nerves so bad that I did not sleep well at night. My appetite was gone. After a hard exertion left me weak and trembling. When I went out I would have to lie down as soon as I got in the house. I tried to go to the doctor, but Dr. Williams' Pink Pills were helping me and by the time I had taken the sixth box I felt like a new woman, and have enjoyed good health ever since. For this reason I highly recommend the pills to anyone run-down or troubled with their nerves."

Not only do Dr. Williams' Pink Pills help the nerves, their pink function is to enrich and increase the blood, and as the blood supplies the whole body, new life is given to the entire system. They sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin them today. Sold by all physicians and druggists. One box contains 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Anything But Peaceful

Doves Are Very Quarrelsome, Says Professor Of Zoology

The dove, for centuries the olive branch carrier and emblem of peace, is found to lead a very quarrelsome family life. There may be some bird that is more garrulous than the dove, but the dove mates quiet.

Dr. W. D. Finkhouser, professor of zoology, at the University of Kentucky, makes the true facts known.

It is his opinion that the crow and bluejay are the most intelligent birds and that the yellow-billed cuckoo and the catbird are the "best all-round friends of man"—Capper's Weekly.

It Testifies For Herself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for rheumatism or for pain in the limb or body, well knows that the medicine proves itself and needs no guarantees. This shows why this Oil is in general use.

Hoover in English Eyes

Hope Is Expressed That He May Be The Next President Of U.S.

It is the hope of those who see beyond the narrowing confines of Pan-Americanism, that Hoover may be the next President. Personally, I feel that it would be a wonderful thing for our country, for ours, and for the world at large, if he were in the presidential chair.

He seems to me to have grown to have widened and broadened. I believe now, as I did ten years ago when I was working with him, that he is one of America's greatest men.—Frankie S. Swan in the British Weekly.

By using X-rays, two generations of tobacco plants have been grown in one year.

Pool To Pay Dividends

Saskatchewan Wheat Pool Members To Benefit Through Dividends On Pool Elevator System

Members of the Saskatchewan Wheat Pool will receive approximately \$800,000 in September as a result of the six per cent. dividend that the Pool is paying on the money invested in the Pool elevator system. The principal for this system has been obtained from members by deducting two cents per bushel from all cheques paid to them.

The Pool members will also receive a dividend of 5 per cent. on the reserve fund. C. W. King, manager of the Pool here, was unable to say what amount this would involve.

It was stated recently by A. J. McPhail, president of the Wheat Pool, that as soon as the Pool controlled shipping facilities at every point the two cents per bushel deduction would be returned to members and that the ownership of the system would be transferred by the pool to the members "from annual payments by members, but a corresponding amount would be returned each year. Thus members of the Pool were saving an amount annually, which in many cases was as high as \$200.

Recipes For This Week

(By Betty Barclay)

ORANGE SHORTCAKE

2 cups flour.
1 teaspoon salt.
4 tablespoons baking powder.
4 tablespoons sugar.
4 tablespoons shortening.
 $\frac{1}{2}$ to $\frac{3}{4}$ cup milk.
Slice the dry materials until well blended. Rub in the shortening using a fork. Cut in just enough milk to make a soft dough. Put in greased cake pan, press back of hand to shape of pan, and bake twelve to fifteen minutes in hot oven.

Filling

6 oranges.
 $\frac{1}{2}$ cup sugar.
Wash oranges, remove the skin, cutting off all white membrane. Cut the orange in half and cut in cubes of uniform size. Sprinkle with sugar, then spread between the prepared crusts. Serve with a sauce made with the juice of two oranges and three fourths cup sugar.

MEDIUM CREAM SAUCE FOR VEGETABLES

2 tablespoons butter.
2 tablespoons flour.
1 cup milk.
 $\frac{1}{4}$ teaspoon salt.
Few grains pepper.

Put butter in sauceman, stir until melted; add flour mixed with seasoning. Stir until thoroughly blended. Pour on milk, one-third at a time, while stirring. Bring to the boiling point. A double boiler is preferable in order to prevent burning. Use 1 cup cream sauce to 1 cup cooked vegetable.

In trying to win a girl's heart a young man often loses his head.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done. Castoria is a balsam remedy meant for babies. Perfectly safe to give the youngest infant; you have the doctor's word for that! It is a vegetable product and you don't have to boil it. Bug it's in an emergency that Castoria means most. Some night when constipation must be relieved—of cold pains—or other suffering. Never keep it in some place where a baby is. Keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

Invented Electric Net To Snare Submarines

Eminent Canadian Also Added Admiralty With Charts of British Isles

Albert Close, eminent Canadian cartographer, whose charts of the British Isles proved invaluable to British fishermen and to the admiralty during the great war, has returned for a visit to his old home, at Napanee, Ont. A great achievement of his during the war was the inventing of an electric net to snare submarines. He had recently prepared a detailed plan of the battle of Jutland, for which he was recognized by Lord Jellicoe. Before returning to England, Mr. Close will interview the department of marine and fisheries and fishing skippers of Newfoundland, Nova Scotia, and the Atlantic coast to obtain information of assistance in preparing new charts of Atlantic coast waters.

Minard's Liniment—a reliable first aid.

"What a lovely fair coat—what did it cost?"

"One single kiss."

"That you gave your husband?"

"No, that he gave the maid."

HERCULES

PERMANENT BUILDING PAPER

CUT IT—it doesn't tear easily

There's no denying that the most careful carpenter doesn't handle his tools with the dainty movements of a dentist.

Consequently he will appreciate a building paper which allows him to throw careful handling to the winds and work rapidly without fear of tearing. Hercules Permanent Building Paper is tough & tearing or cracking in using is unheard of. Carpenters prefer it because it is easy to use.

Hercules—in three grades, x light, xx medium, and xxx heavy, is wind proof and damp proof.

Shortage of Russian Wheat Has Tendency To Steady Markets, But Lower Prices Predicted

Condition of wheat crop and storage wheat is such that lower world wheat prices are promised, and lower bread costs should cheapen the loaf.

If it were not for the Russian situation, general wheat prices, which are under last year's figures, would be down still more. Russia was the greatest wheat power of the world for export, and forecasts always hinged on her crop.

But the Soviet experiment causes the Russian peasant to grow what he wants for himself only, because all surplus is taken by the government for general use. There will be a tremendous wheat shortage in Europe, caused by the Russian deflation in growing, and Canada is the only country that will ship in great volume to Europe, local grain brokers say.

"It will take years for Russia to get to the point where she can supply wheat as of old, and that won't be possible until she alters her present system," said a grain exporter. "If Russia wants to communicate wheat in her own country, that may be her business, but as Russia needs outside markets and cannot get it unless producers are compelled to sell, she will have to alter her system, and pay the Russian farmer in money for his surplus wheat which she can then export and obtain credits in the world markets. But, until she does, Hon. T. A. Creer, President of United Grain Growers, Ltd., is quite right in saying that European conditions indicate a favorable outlook for the marketing of Canada's grain crops for the next three or four years."

Heavy European demand for wheat, barley and other grains would naturally stiffen prices were it not for the fact that so much wheat has been grown, and the "tough 5" grade at \$1.04 per bushel, is 30 cents a bushel lower than this time last year. The amount of No. 1 Northern in storage at Fort William is practical, all of it, caused by the heavy rains in last crop period. Brokers say they can't buy 10,000 bushels of it, and it would take months to get 30,000 bushels together.

There are seven grades of straight wheat, and seven grades of the "tough" kind, which have greater moisture content. Lower grades of wheat, sold at still lower prices than last year, will be used for export, and for domestic flours. There is one western Canada wheat selling to West India flour trade at 94 cents per bushel, but the "tough 5" in the absence of any of the first straight grades which are not tough, is what will be mostly consigned to Europe, and the 3, 4 and 5 straight grades will be mostly used for flour in this country, with Nos. 1 and 2 almost all in supply.

Outlook for grain prices on the market is also poor, but this hinges on weather conditions. Rust in the crop or other adverse factors would either hold present figures up or might better them. On the whole, lower prices are looked for.

Wheat Pool Pays Interest

The Alberta Wheat Pool has decided to pay interest to its members at the rate of six per cent on the commercial reserve fund which has been accumulated as a result of its operations during the last three years. The fund now amounts to approximately one million dollars, and cheques for \$60,000 interest will be mailed to the farmer members.

"Honesty is the best policy."
"I know it is the best—it is used so little." — Karikaturen, Oslo.

The Manufacture Of Ice Cream

Now Becoming a Very Important Adjunct Of The Dairy Business
A brief description of the food value of ice cream has given this dessert a place in the regular diet of many people. With the growth of the ice cream business there has been a steady improvement in the quality, demanding improved machinery and a better knowledge in the operation of the ice cream plants.

The making of ice cream is recognized as an important adjunct of the dairying industry, and as such, the Dairy and Cold Storage Commissioner has prepared a bulletin on its manufacture. Mr. A. H. White, the author, has reviewed the opinions and practices of many of the leading makers and has incorporated these as a safe guide for the makers of fine ice cream. For comparison of the present day is something more than frozen sweetened cream. In addition to the fats and solids of milk, ice cream contains, gelatin, and such stabilizers and fillers as vegetable gums, starch and egg yolk powder, and other wholesome products that have been found to improve the quality and palatability of ice cream. Various flavoring materials are used and nuts and fruits are common ingredients.

The bulletin, No. 102, of the Department of Agriculture, at Ottawa, fresh from the Government press is distributed by the Publications Branch of the Department.

Cars For Canadian Wheat

Railways Will Place All Available Cars At Points Where Required

Railway cars for the movement of this year's Canadian wheat crop are already being assembled at Western Canadian terminals. More cars will be used at strategic points throughout Alberta than last year.

Notwithstanding the effect of the Canadian Wheat Pool in equalizing delivery of grain throughout the year, there still remains a vast amount to be moved each season immediately following harvest. The railways anticipate this rush by placing all available cars at points where they will be required before the actual movement begins.

Based on the present outlook the transportation companies are preparing to handle 380,000,000 bushels of export wheat alone besides the domestic movement.

Kansas Farmers Tour Canada

Will Visit Western Provinces To Study Farming Conditions

A special train load of farmers from the State of Kansas will tour British Columbia, Alberta, Saskatchewan and Manitoba in August. In addition to viewing the mountain scenery of the coast provinces they will look into the agricultural possibilities of Western Canada. These Kansas former residents of Kansas and other grain states are now farming. Cheap lands and the favorable marketing conditions established in Canada are the attractions which have brought most of them northward.

Fairview is the new name of a thriving Peace River District. For many years it has been known as Waterhole, an attractive title to ranchers and stock men but lacking something in its artistic suggestion. The offence to modern sensitivities has been overcome by the new and appropriate name of Fairview.

Special Committee Has Prepared Tentative Classification and Prize List for World's Grain Exhibition

CANADIAN SHARPSHOOTER

Lieut. Desmond Burke, the Canadian sharpshooter, and former king's prize winner, who was second this year in the match for this coveted honor.

Work Of Illustration Stations

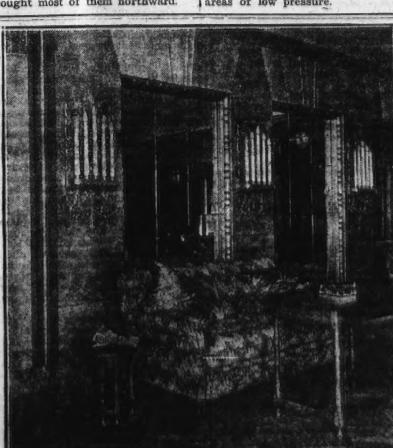

Not Experimental, But Just Ordinary Farms

There are 165 illustration stations in Canada. A separate division of the Experimental Farms Branch of the Dominion Department of Agriculture has charge of direction of the work of these stations. The illustration stations are not experimental farms but just ordinary farms chosen in districts where example will do good, preferably located on a highway. The owners of the farms chosen continue to operate, but they do so under supervision. Each station becomes a centre for the growth and distribution of high-grade seed of new and improved varieties, of pure bred livestock, and serves as a medium for conveying to the farmers in the vicinity, in a practical way, the results of the experimental and research work carried on at the experimental farms.

What's In A Name

Fairview is the new name of a thriving Peace River District. For many years it has been known as Waterhole, an attractive title to ranchers and stock men but lacking something in its artistic suggestion. The offence to modern sensitivities has been overcome by the new and appropriate name of Fairview.

Atmospheric disturbances occur in areas of low pressure.

LUXURIOUS APARTMENTS

For the purpose of laying out a prize list for the World's Grain Exhibition and Conference to be held in Regina, in 1932, a tentative classification has been prepared by a special committee nominated by Hon. W. R. Motherwell, Dominion Minister of Agriculture.

This committee was appointed as a result of the conference held two months ago between members of the World's Grain Exhibition Committee and the federal department of agriculture, where cooperation of this department was promised to the proposed exhibition.

Following its appointment this committee, composed of J. A. Mooney, Regina; L. H. Newman, Cari Sweet, Dr. McRostie, and G. H. Clark, all of Ottawa, has drafted a classification which is "tentative in character and intended only as a basis for the consideration of the prize list which should be submitted to those interested in this exhibition.

Exclusive of special classes, the tentative list makes provision for \$202,500 in prizes.

The tentative list proposes six classes of wheat with \$100,000 in prizes; two classes of oats with \$30,000 prizes; five classes of barley with \$15,000 prizes; three classes of field peas with \$3,000 prizes; two classes of field beans with \$3,000 prizes; two classes of soy beans, \$1,000; one class of rye, \$5,000; one class of flax, \$2,000; three classes of buckwheat, \$3,000; four classes of corn, \$30,000; one class of rice, \$2,000; two classes of millet, \$2,000; one class of alfalfa, \$2,000; one class of red clover, \$1,000; one class each in sweet clover, timothy, bromo grass, mangels and turnips, \$500 each.

In the wheat classes the varieties proposed are hard red spring, white spring, hard red winter, soft red winter, white winter and durum. A special class is proposed for the best baking and milling varieties. In the oats class, the varieties suggested are medium, late, early, and wild oats. In the barley class the proposed varieties are six rowed, hulled, kernels medium to small, kernels long; two rowed, hulled, Chevalier type and Duckbill or Thorpe type; hull-less as well as a special section for the best milling variety.

The field pea class is proposed with large white or yellow and small white or yellow varieties. The buckwheat class is proposed for black, silver hulled and rough or rue. In the corn section, the varieties proposed are white dent, any other colored dent variety, white flint and any other colored flint variety. The rye class includes common and fox-rye.

An All-Canadian Motor Route

Motorists to the Rocky Mountains National Park, Alberta, may now enjoy an all-Canadian tour that will take them through 600 miles of mountain scenery, at no time during the journey taking them out of sight of the snow peaks. This route is from Banff, Alberta, over the Banff-Windermere Highway to Flirdans, British Columbia, and then down the Columbia Valley, returning east over the Crowsnest Pass route.

Wis men change their minds occasionally, but fools have none to change.

Canada has the most extensive sea fisheries in the world.

"With my hair cut short I don't look like an old woman."

"No. Like an old man!" — Bues Humor, Madrid.

MOST people know this absolute antidote for pain, but are you careful to take it? If you do, and will you always give a glance to see Bayer on the box—and the word "genuine" printed in red? It isn't the genuine Bayer who does it. A drug store always buys Bayer, with the proven directions tucked in every box:

Aspirin
is the trade mark
registered in Canada
by the Bayer Company,
Manufacture. While it is
well known that aspirin means Bayer
medicine, it is important to remember
the Tablets will be stamped with their "Bayer
Cross" trade mark.

WORLD HAPPENINGS BRIEFLY TOLD

H.R.H. Prince George has been appointed to H.M.S. Durban as an interpreter in French.

C. G. Caverhill, chief forester for British Columbia, will go to Australia to represent British Columbia at the British Empire forestry conference there.

Alaska now has more than forty landing fields for airplanes, and plans are under way for the construction of sixteen more, according to F. C. Crawford, of Fairbanks.

It is probable that Premier King will go to Geneva, in September, as a Canadian delegate to the League of Nations assembly and also as a member of the council of the League on which Canada now has a seat.

Leaders of the Arab Congress presented Lord Plumer, the high commissioner, a demand for the institution of democratic rule in Palestine. Lord Plumer promised to take up the question at his visit to London.

French attorneys have entered protest against the "morally reprehensible" conduct of United States in regard to the "foreign divorce bill." The protest was sent to the American Bar Association.

The steamship North Shore has sailed from Quebec, prepared to stop at Greenley Island and at Long Point in the mainland to pick up the dismantled trans-Atlantic plane Brennen and bring it to Quebec City, where the plane will be reassembled and placed on exhibition for a short time.

Asthma Can Be Cured ... its sufferers need not let it be a terrible torture to endure. After its many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. Minard's King of Pain Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

Where Begging Is Prohibited

Begging is prohibited in Lima and Callao. An order recently issued by President Legua states that, in view of the completion of a beggars' asylum by the Lima Society of Public Beneficence, capable of caring for 200 persons, anybody found soliciting alms will be arrested.

Vacation!

When you are going on vacation take a bottle of Minard's along. You'll need it for sunburns, bites, etc.

Announces Arts Competition

Viscount Willingdon To Donate Prizes Totaling Thousand Dollars

Announcement that His Excellency Viscount Willingdon, purpose of whose visit to Canada is to attend the Dominion Conference in July, will occasion much appreciation in art loving circles throughout the Dominion. In music there will be one prize of \$300, and two prizes of \$100 each; drama, one prize of \$200; painting, one prize of \$200; and sculpture, also one prize of \$200.

These gifts indicate not only His Excellency's interest in the arts in Canada, but also his interest in Canada generally. It is a practical interest of a type that will appeal. The competition which he is inaugurating should do not a little to develop talent and engender skill in the arts, and it is to be hoped the west will be heard from in the contest.—Regina Post.

New Born Settlements

New Townsites Springing Up In The H.B.R. Area

New born settlements in Northern Canada are having rapid growth. Mining operations at Cranberry Portage, Cold Lake and Pine Flora, and the demands of the Western Prairies for miners, timbermen to the ocean, are the main causes for the building of the Hudson Bay Railroad now under construction by the Canadian Government and the Canadian National Railways. Stores, hotels, and growing townsites are quickly taking root in the north to care for the expected increase in population during the next few years.

Winnipeg Newspaper Union

Smart Blazer For the Junior Miss

The blazer is decidedly smart this season and is shown here in two views worn over a chic one-piece frock. View "A" is fashioned of striped flannel and has a notched collar, patch pockets, and long two-piece sleeves; while view "B" is of plain and contrasting material and has rounded lower front edges. No. 1627 is in sizes 28 inches—36 inches. Size 12 requires 2 pieces 28 inches—36 inches; size 14 requires 2 pieces 28 inches—36 inches; size 16 requires 2 pieces 30 inches—36 inches; size 18 requires 2 pieces 32 inches—36 inches; size 20 requires 2 pieces 34 inches—36 inches; size 22 requires 2 pieces 36 inches—38 inches; size 24 requires 2 pieces 38 inches—40 inches. Price 75¢.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

WILL CONSIDER MORE PLANS TO AID IMMIGRATION

Ottawa, Ont.—The announcement by Right Hon. Winston Churchill that the British government is prepared to spend more money in stimulating British immigration to Canada has created deep interest at Ottawa. While officials of the immigration department are unaware of the various policies suggested, it is expected that Lord Lovat, who will arrive in Canada shortly, will have complete details.

All of the proposed policies with the exception of the boy immigration scheme are either new or are schemes which have been suggested by the Canadian government and refused by the British Government.

This is true, particularly of the proposal to give to settlers a substantial loan to aid them in commencing farming. The Canadian government obtained the consent of the British Government, in the 3,000 family scheme, to an agreement whereby the British Treasury advanced \$1,500 per head but when the agreement expired the British government sought to reduce the amount for future settlement to \$800. When this was refused they increased the amount to \$1,200 and it is not expected that they will be prepared to deal with settlers in still more generous terms.

In the matter of reducing the ocean rate the Canadian government has hitherto been opposed to spending more public funds for this purpose, but it is believed that the steamship companies and the British government are willing to this end, other schemes suggested by Mr. Churchill are all regarded sympathetically at Ottawa, and as soon as Lord Lovat arrives the department will reach a decision.

Alberta To Consider Town-Planning Scheme

Premier In Position To Make Recommendation To Council

Edmonton—Premier Brownlee has returned from his visit to the University of California, where he gave the opening address at the fourth annual convention of the American Institute of Co-operation, by invitation of the U.S. federal minister of Agriculture.

En route, he stopped at Victoria and Vancouver to interview two possible town planning directors for Alberta's recently-formed Town Planning Commission—H. L. Seymour, town planning commissioner for Vancouver, and Doughty Davies, who had just completed a town planning survey in Victoria. These two, with other applicants will be considered by council in the near future, and the premier indicated that he was in a position to make a recommendation to council.

Nova Scotia Reports Few Men Available

Cannot Supply Number Asked To Assist In Western Harvest

Halifax.—The department of natural resources has notified the minister of labor, at Ottawa, that Nova Scotia would be unlikely to supply more than 10 per cent. of the number asked for to assist in the harvest of the Western wheat crop.

It was stated that owing to the increased activity in the provinces in building and mining industries, the number of men who will go on the harvest excursion from Nova Scotia would not be more than 1,200.

Stimulation Much the Same

Ottawa, Ont.—Renewed reports that the Government may take over a number of provincial or privately owned railways in different parts of the country and merge them with the Canadian National brought the statement from the Minister of Railways that the situation is very much the same as in the last session when he stated that Sir Henry Thornton is looking into all these propositions.

W. N. U. 1744

Balfour At Eighty

Distinguished British Statesman Has Been Adviser To Three Sovereigns

London.—Great Britain celebrated yesterday the 80th birthday of one of her most distinguished statesmen, the Earl of Balfour. Lord Balfour's public service goes back to 1874 years, for he entered the House of Commons in 1874, and he is one of the few great survivors of the Victorian era. He was adviser to three successive sovereigns.

The other statesman of outstanding eminence in the period alive today is the Earl of Rosebery. He has been out of politics for 20 years and is an invalid. Earl Balfour is a member of the cabinet today, being Lord President of the Council.

Notwithstanding the throat infection which laid him aside during the winter and spring, he is again normally active. His recent illness necessitated a rest from his usual physical activities including tennis, of which he was a devoted player, but the Daily Mail quoted him recently as saying that he intends to take up tennis again shortly.

English Cadets Will Compete

Ottawa.—A party of English cadets which will make a tour of Canada will participate in the annual prize meeting of the Dominion of Canada Rifle Association here, Aug. 13 to 17. There will be fourteen in the party, under the command of Captain R. E. J. Hanson. Ten members of the Australian Bisley team, who will return home by way of Canada, also are likely to take part in the competition while most of the members of Canadian Bisley team are scheduled to enter.

A team of cadets from Victoria High School, Victoria, B.C., will take part in the Dominion matches and will motor from the capital of the western province.

At the matches last year there was one woman competitor and this year there is a prospect of four or five women entrants from Saint John, N.B.

Phone Call From London

Moose Jaw Station Converses With British Metropolis In Test Talk

Moose Jaw—“Hello, this is London, England, speaking, how do you hear me?”

This question was asked by a voice speaking 6,000 miles away while the listener was a Moose Jaw man, J. A. Inch, wire chief of the local telephone office. For two or three minutes Mr. Inch conversed with the man speaking from the metropolis of England, some 6,000 miles away, and he could hear him clearly throughout the conversation.

The test call was put in from the British Isles to Saskatchewan to determine the efficiency of the long-distance system recently inaugurated whereby a person in the West can converse with anyone in the Old Country.

Linbergh's Earnings Large

Federal Tax Payments This Year Amount To \$30,000

Washington, D.C.—During the latter part of 1927, according to reliable calculations, the earnings of Charles A. Lindbergh, New York Paris flier, amounted to \$204,000 and his Federal tax payments this year amount to \$30,000. He started his earnings by winning the \$25,000 Orteig prize for being the first to fly the Atlantic to Paris. For touring 70 American cities he received \$300 a day from the Guggenheim Foundation.

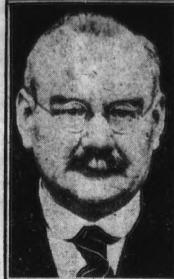

Will Investigate Noble Charge

Rome.—Italy's inquiry into the conduct of the Noble expedition, which has been ordered by Premier Mussolini to still hostile criticism throughout Northern Europe, is expected to be opened late in September or early in October. It is believed that it will be directed by Mussolini himself.

Hail Ruins Crops

Saskatoon.—Heavy grain crops, almost ready for the harvest, were completely wiped out in some parts of central Saskatchewan last week by hail which accompanied the worst electrical storm to have swept this district in a decade.

TO VISIT CANADA

Right Hon. Thomas Shaw, M.P., Minister of Labor in Ramsay MacDonald's cabinet, who will tour Canada with the British Parliamentary Association.

Find Wreckage Of Plane

Idea Is Advanced That May Explain Fate Of Nungesser.

Copenhagen.—A fragment of aeroplane wreckage with some silver and blue and colored fabric attached to it has been picked up on the Jutland Coast here.

In the belief that the wreckage may possibly be part of the Nungesser-Coll plane lost last year, the fragment has been sent to Paris for identification. The wreckage was found by Dr. Frode, a Danish physician. There was a wireless receiver among the fragments.

May Meet In Canada

League Of Nations To Consider World Disarmament Conference

Ottawa.—A world disarmament conference, vastly more far reaching in its scope and consequences than the United States Multilateral Treaty, for the outlawry of war, will be convened by the council and assembly of the League of Nations on Sept. 26.

It is said that in the event of the conference being decided upon the Prime Minister of Canada may issue an invitation for the conference to be held in Canada.

Record Number Of Entries

Many Nations Will Be Represented At Olympic Events

Amsterdam.—Entries for Olympic swimming, rowing, yachting, wrestling, modern pentathlon and cycling have closed with a record number of countries signifying their intention of competing.

Thirty-one nations will be represented in the Olympic swimming, 23 in yachting, 20 in rowing, 29 in wrestling, and 14 in the modern pentathlon.

Lessening Fire Hazard

Winnipeg—Rain is gradually lessening the fire hazard of the forests of Northern Manitoba districts, and according to forestry officials here the 20 to 30 fires which the Royal Air Force and the fire rangers have been fighting strenuously during the past month, are gradually petering out under the drenching.

Will Investigate Noble Charge

Rome.—Italy's inquiry into the conduct of the Noble expedition, which has been ordered by Premier Mussolini to still hostile criticism throughout Northern Europe, is expected to be opened late in September or early in October. It is believed that it will be directed by Mussolini himself.

Hail Ruins Crops

Saskatoon.—Heavy grain crops, almost ready for the harvest, were completely wiped out in some parts of central Saskatchewan last week by hail which accompanied the worst electrical storm to have swept this district in a decade.

Cannot Supply 'Plane To Hunt Prospectors

Department Of National Defence Receives Many Appeals

Ottawa.—The first requisite of a prospector is the ability to find him self.” That is the view taken by the Department of National Defence, asking that a “plane be sent to search for him,” said this official. “In most cases the department declines. In the first place, the prospector is probably not lost at all, but something has impeded his progress. Then if he were lost there is very little chance of an airman seeing him from a “plane.”

“When a prospector in the North woods fails to turn up when his employers or associates think he should they rush to the Department of National Defence asking that a “plane be sent to search for him,” said this official. “In most cases the department declines. In the first place, the prospector is probably not lost at all, but something has impeded his progress. Then if he were lost there is very little chance of an airman seeing him from a “plane.”

Heads Teachers' Federation

Winnipeg Man Is Elected President For Coming Year

Winnipeg—C. W. Ladshaw, B.A., principal of the MacPhary junior high school, Winnipeg, was elected president of the Canadian Teachers' Federation at the ninth annual conference here.

The other officers of the association for the coming year are C. Braden Jely, of Summerside, P.E.I., who was given the majority vote over H. Sweet, of Alberta, for vice-president; and Alderman M. J. Coldwell, of Regina, who was re-elected secretary-treasurer of the organization.

Harvesters From B.C.

Coast Province Will Be Able To Supply Utley Quota

Vancouver—British Columbia will be able to supply its usual quota of harvesters to the prairie provinces this year, in the opinion of government officials here. While it is stated conditions in British Columbia are better than in past years, it is estimated that six thousand men will be available for the harvest fields of western Canada this year, in the opinion of J. H. McVety, superintendent here of the Dominion employment service.

Big Opium Seizure

Shipment Valued At \$120,000 Is Seized At Nanaimo

Nanaimo, B.C.—Opium valued at \$120,000 was seized in the bonded warehouse here. It was concealed in a package of freight marked “peanut oil” and “salt turnips.”

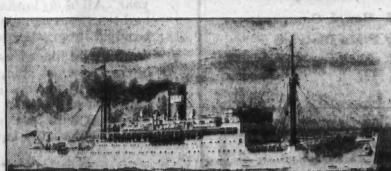

The package was addressed to Lun How, a local Chinese merchant and are thought to have come over on a liner recently arrived from Asiatic ports.

The seizure was made by provincial police assisted by officers of the customs preventive staff.

Win First Place

Edmonton—Bringing to the city market scales nearly two and a half tons of weeds, C. Russell, of Edmonton, won first place in the civic campaign against thistles. Mr. Russell's load weighed 4,960 pounds and as a reward for his energy the winner will receive \$25 in cash.

NEW CANADIAN STEAMSHIP

The “Lady Nelson,” first of five steamers being constructed for the Canadian National Steamships to be operated between Canadian Atlantic ports, the West Indies, British Guiana, Bermuda, the Bahamas and Jamaica. They will engage in passenger, cargo and mail traffic, with special refrigerator equipment. The passenger accommodation will be of the most complete character. In construction these ships are being built to comply with all requirements and will possess the most complete facilities for comfort and safety. The “Lady Nelson” was launched on July 17th, and was christened by Madam Lapointe, wife of the Minister of Justice.

ARCHBISHOP OF CANTERBURY HAS RESIGNED OFFICE

London.—After serving for 25 years as Archbishop of Canterbury, Right Rev. Randall Thomas Davidson has resigned. His long-expected retirement was undoubtedly hastened by Parliament's second rejection, last month, of the revised prayer-book, in support of which he had labored for years.

It was announced officially that the King had received with great regret an intimation from the Archbishop that he was desirous of resigning his high office. His Majesty, on the recommendation of the Prime Minister, by Royal Warrant, appointed a committee consisting of the Archbishop of York and Bishops of London, Durham and Winchester, for the purpose of receiving the resignation of the primate.

The commission reported that it accepted the archbishop's resignation to take effect on November 12, of this year, and that this had been approved of by His Majesty.

The Archbishop of Canterbury, 96th in his line, is 80 years of age. At about the time his resignation will take effect he and his wife will celebrate their golden wedding anniversary, and it is planned to present to them on this occasion a fund which is now being collected, to ensure greater comfort in their declining years. A memorial will also be placed at Lambeth Palace, residence of the Archbishop of Canterbury, to mark the general gratitude for Dr. Davidson's long and painstaking services to the church and the nation.

Most Rev. Cosmo Gordon Lang, Archbishop of York, the most probable successor to Dr. Davidson, indeed it is reported he has already been offered the post and has indicated his acceptance.

Veteran Mountie Dead

Captain Denny Enlisted With Force Was Being Organized

Edmonton—One of the two last survivors of the original troops of the Royal Northwest Mounted Police to cross the plains in 1874, Capt. Sir Cecil Edward Denny, 79 years old, sixth Baronet of Tralee Castle, County Kerry, Ireland, died in a local hospital on July 24.

He came to Ireland at the age of 24 and enlisted at Ottawa in the R.N.W.M.P., which was then being organized. He rose to the rank of Inspector in the force and was one of the officers to sign the famous treaty of 1877 with the Indians.

In late years Sir Cecil Denny has been acting as archivist for the Alberta Government, and has written several books on early life in the west.

Start Long Water Trip

Vancouver Men Sailing From New York To San Francisco Via Panama Canal

New York—James McArthur and Sydney A. McQuillan, both of Vancouver, B.C., sailed down the Hudson River in a 34 foot motor launch, the Miss Vancouver, bound for San Francisco. They will go by way of the Panama Canal.

McQuillan, who is a well known speed boat enthusiast of Vancouver, and who has already travelled more than 10,000 miles in that type of boat, is planning the trip as a method of proving the possibility of using a slow speed motor in a high speed hull.

Portrait Presented To Dominion

Ottawa.—A magnificently lifelike portrait of the late Earl of Minto, at one time Governor-General of Canada, has been presented to the Dominion archives. The portrait, the work of Miss Vicqai, an English artist, arrived recently, and has been hung in the room devoted to Governor-General. The Dowager Countess of Minto, widow of the late administrator, donated the gift to the nation.

Plan Visit To States

New York—Field-Marshal Lord Allenby and Lady Allenby have planned a visit to this country, and are due to land here October 2.

(117)
Quebec, Quebec. — The most suc-
cessful meeting of the Canadi-
an Growers Association was held
at the Chateau Frontenac on Wednes-
day, June 16th, with a record de-
mand for registered seed for all
varieties, given as follows: Wheat,
77,910 bushels; corn, 515 bushels;
barley, 16,637 bushels; and oats,
10,748 bushels.

Montreal, Quebec. — Fur prices
have advanced since the early
spring, as reflected in the three-
day fur auction sale recently con-
ducted here. Nearly 50,000 skins
brought up to 20 per cent above the
level of the previous sale, with a
top price of \$2.80; mink was also
up 20 per cent, with the highest
sale at \$1.50; wolf skins brought
a ten per cent advance
over the price level of early spring.

Canadian dinner in the Old
Country are not considered com-
plete without Canadian ice cream
for dessert. This, for the High-
Commissioner's annual dinner in
London, was served here. Nearly 50,000
tubs of the delicacy were ordered
and these were delivered by Cana-
dian Pacific Express in ample time
for the dinner. The dinner was
done last October for a special
Canadian dinner held at Manches-
ter by the Canadian Trade Com-
missioner there.

Ottawa, Ontario. — By the end of
the season 15 flying clubs will have
been established throughout the
country according to service from the
Air Board. A total of \$170,000 is
being spent by the board this year
in the promotion of these clubs for
civil flying. Clubs are already
fully established at Montreal,
Toronto, Ottawa, Hamilton, Halifax,
Saskatoon, Regina, Moose Jaw,
Edmonton, Victoria and Granby.
One at Halifax and another at Lon-
don are about to enter the list.

Transportation of some, but
valuable packages by air from
Canadian Pacific Liners at Rimouski
to Montreal and Toronto, thereby
saving about 24 hours in time
is becoming increasingly popular.
Among the latest arrivals at Montreal
and Chatham, Guelph had its turn
with a parcel of Irish linens going
to a department store there and the
shopkeeper welcomed by Major
Robinson and other prominent ci-
zens of the town. These parcels
are handled by the Canadian Paci-
fic Express Company.

A tablet in memory of men of
the Seven's Royal Fusiliers who
served with the Ont. Garrison
during the years 1775-76 by the
Americans under Major General Arnold, was unveiled on Dominion
Day on the Wall of the Chateau
Frontenac. His Excellency, the
Governor-General, and others
present at the ceremony were officers of the
Fusiliers from England and a detach-
ment from the Canadian Fusiliers
of London, Ontario, who are
stationed in the English corps. The
Chateau Frontenac occupies
the site of the old St. Louis
which was the military headquar-
ters during the siege.

Inspection of the "Duchess of
Bedford," new 20,000-ton Canadian
Pacific liner, which recently made
her maiden trip to Montreal, at once
demonstrated the remarkable stability
of the "Lusitania" design for ocean
travel. Ventilated under the Louis
Louise system of ventilation, con-
tinuous unless cool air is forced
under general pressure to every part
of vessel. Broad sun-deck and
open spaces, and the ship has
the luxurious appearance of the
ship and a has now been decided
that the "Duchess of Atholl" shall
be used on the South America-
South Africa cruise next year.

WHY SUFFER WITH HEADACHES?

Copyright, Canada, 1925

CHAPTER XXIX.—Continued.

The heavy rain had washed the roots of the old dead grass into the ground, leaving the bold young shoots showing, and the air had such a balmy mildness that Helmi was content just to sit and breathe it and watch the clouds, clear and white like lamb's wool, sailing overhead in the distance.

She wanted to sing a song of the passing winter, with all its strength of frost and weight of snow, its frozen rivers and leafless trees, for every budding tree and springing flower and caroling bird was singing it, too. She remembered a song Mrs. St. John used to sing, which she said was an old-fashioned song, but she sang it to please the doctor, who liked the old songs best:

"Blue bird, blue bird, bird with the golden wing,
Do you bring me a letter or do
you bring me a ring?"

Helmi brought out a chair, and sitting on it, nursing her knees, she sang in perfect happiness. She had four dollars in her pocket; a sick baby in the Isolation Hospital; a dog with three pups to whom she had promised food and shelter; a husband who apparently had deserted her; not a relative nearer than Finland; but she sang a song of home, and love, and spring, looking into the blue sky above her, for in her heart there was the peace which passeth all understanding!

Mrs. McMann, on her way to the store, saw Helmi sitting at the end of the house and heard her singing, and forthwith forgot that she had left an oven full of pies.

"Helmy," she called out as she came nearer, out of breath with her hurry, "What is it with you? Have you come back?"

Helmi quickly rose up to greet her. "There's nothing wrong," Mrs. Mc-

Mann. I am all right—I'm fine—I'm happy that's all."

"But Helmi, where is your child?" Mrs. McMann was prepared to show a strong if somewhat belated interest in Helmi's baby.

"She is all right too," Helmi said. "She is in the Isolation Hospital with scarlet fever, but is doing well and will be home in a few weeks."

Mrs. McMann heard the news with great forebodings.

"Oh, Helmy, don't set your heart on her if she has scarlet fever. It always leaves something behind it—drowsiness, or blindness, or something."

Helmi resisted an impulse to laugh. "Oh, I don't think so," she said, "she will be all right. I wish she will be well. I am not worried."

Helmi's cheerfulness seemed most unlively; not could she explain it to Mrs. McMann—there was a greater bar between them now than even that of language.

"Well, it's grand to take things as easy as you do, Helmy. I must say. Now when my children were little they had the fever, too, all together; not very bad, but I worried. Mr. McMann—no it was Mr. Bush! I had then—scolded me for crying all the time, but he couldn't understand. My how I cried! He could not understand mother's heart, of course. But no doubt girls are different now. I was so conscientious. I suppose in a way you are glad to get away from the baby for awhile? Well, it was different with me—I slaved for mine. But it doesn't pay. Are you going to stay? No! Goin' back are you? City life is too much for girls these days. Picture shows attract them. Well, in the midst of life we are in death, remember that, Helmy, and don't put your trust in worldly pleasures. Did you hear what happened to the magistrate at Bannerman last night?

In her happiness Helmi had not been thinking of the magistrate. Started by Mrs. McMann's enquiry she could only say "Do you mean Col. Blackwood?"

"Yes, the same one—the one that forgot to put it down in his book. He won't forget no more—he was struck with lightning."

"How do you know?"

"It was found lying on his back, dead, and his chimney all knocked down, and his eyes wide open."

Helmi shuddered; she knew just how the eyes looked.

"It gave me such a turn when I heard it, and I ain't been so well anyway. My stomach's up on me again, Helmy; I believe I'll have to go home and see a doctor. I can't trust any of the doctors here—they haven't got the papers like they hold in the States. All my trouble is inward, Helmy, and I don't believe these doctors could ever understand it."

"I am sorry," said Helmi; "I wish I could help you."

In her new found happiness Helmi could understand Mrs. McMann and her pitiful little striving for praise and applause. Her sordid heart, her little meanness, her petty jealousies, her dull gray outlook, snubbed Helmi's heart now with pity.

"You're a good girl, Helmy, no matter what you've done or haven't done, and I've a good mind to take you back, no matter what anyone says."

Helmi laid out as she patted her visitor's arm. "What's the old Sime?" she asked quickly. "Is he still here? He did not write to me!"

"Oh, didn't you hear? He had an accident in the mine and hurt his leg. He is still in the hospital, so I guess that's why. They say he'll never be able to night-watch again. You know I miss him, too, and wish now that I hadn't been quite so sharp on him. Well, won't you stay, Helmy?"

"No, I am going to the City," said Helmi, "but I want you to feed Cleo and the pups for me. There's plenty of scrap from your table, and they can sleep in my house. I'll ask Bill Larson to shut the door at night and open it in the morning, and when Lill is better I will come back. You will like my Lill, Mrs. McMann; she can smile now and play with her hands."

Mrs. McMann sighed. "I am always sorry when I see a girl baby—life is so hard for us women."

Helmi got another letter at the post-office, a letter from Arthur Warner enclosing another fifteen dollar cheque. He was over in France, on active service, and this letter was written as he sat waiting for the signal to go over the top in an attempt to capture a German position.

"It's good to have someone to write

to," Helmi thought.

The Dependable
Vegetable Compound

Port Elgin, N. B.—"For three months, I was nervous and weak with dire feelings and could not work. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and I have got good results from it. I am recommended to others." —LILA TAYLOR, Port Elgin, N. B.

This dependable
medicine is sold by druggists everywhere.

WRIGLEY'S

NEW HANDY PACK

A treat in the Peppermint-flavored sugar-coated jacket and another in the Peppermint-flavored gum inside—**unmistakable value in long-lasting delight**

Helmi, someone who cares; and want you to do something for me. It worries me to think of my house and garden lying idle there and going to ruin. I want you if you would go there to live. The garden has raspberries and currants and strawberry plants too, and there are prunings in the house for a year. If you go there I want you to take Cleo, too, and give her a home. She is a wonderful dog; I cannot tell you what she has been to me. And my horse, Sailor, that I left with the Ransoms would be handy for you to drive to town. I would feel better if you would come here, dear Helmy, and I hope you will go. It does not seem reasonable to believe that I shall ever come back, but if I do, the place will be in better shape for your having occupied it. So you will be doing me a favor when you come to town. I will be here to meet you at the station.

At the bottom of the letter there was a postscript. "You will never need to be bothered with these meddlesome prospectors hunting for coal, for I bought all the mineral rights; so if the bank of the creek is solid coal, and I rather think it is, they can never come in without your consent. If you want to plant the garden this spring you will find the seeds in the root-house, all labelled. Maybe I had the wrong plant on life, Helmy, wanting to build a wall around myself. I've had time to think it over, and can see it was a mistake. One cannot live that way. Now I want you to do what you like with whatever that is there. I have made my will and left all to you. My lawyer here will arrange matters fully if anything happens. I enclose his address. Now we are going—A. W."

Helmi was in her own little house when she read the letter, Cleo whimpering at her feet as if she knew her master had written. "It is well, Cleo, and he wants you and me to live together, and so we will. We had decided that already, and now I see God has sent me a home as well as a dog to keep me company. I do not know where we will make a living there, eight miles from any settlement, but we should worry over a little thing like

"BABY GIRL HAD DIARRHEA
WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, writes: "My baby girl had diarrhea when cutting teeth and became very weak with the effects of diarrhea. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, ' Haven't you any?"

Why, I wouldn't be without it where there are children."

"My husband went to town and got medicine, and the very first dose helped her very considerably in three days. She was well over the diarrhea and was running around as well as ever."

"Put up only by The T. Milburn Co., Kinston, Toronto, Ont."

that. God will provide for us some way, Cleo."

Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Saskatchewan Dental Society

JUMPING TOOTHACHE

You have been fortunate indeed if you have never experienced that worst of all dental pains—the "jumping toothache."

In passing you have listened sympathetically to your little chap as he tries to tell you between sobs how sometimes it seems to be jumping up and down inside the head that pain more and more intensely as he lays with his cheek against the pillow.

Instinctively, perhaps, he had hit it up, and he found happy, that it did not hurt nearly so much as when he was lying down. Now you, though perhaps because you are older, think about it so much when sitting up, that made the pain more bearable, but just why it "jumped" you were not so sure. You may have noticed that if you tap finger with an area of inflammation around the wound, and you noticed that the pain was of throbbing character, that with each pain beat there was a sharp little stab, so to speak.

Now, the same with the tooth, with each heart-beat, it would suddenly blow blood into the pulp tissue, which, being inflamed and already engorged with blood, is subjected to an increased and severe pressure (at each beat), and a consequent response on the part of the nerves as they are subjected to the abnormal pressure. This, we call pain.

Then with your little chip sitting up, the flow of blood to the head was lessened, resulting in a milder rush of blood into the tooth pulp which lessened pain.

With your little chip sitting up, the flow of blood to the head was lessened, resulting in a milder rush of blood into the tooth pulp which caused a decreased pressure.

SAVE THE CHILDREN

In Summer When Childhood Aliments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their babies are reasonably safe during the hot weather. Stomach troubles, cholera infantum, diarrhoea, cholera, enteritis, scalds of little ones, mercury absorption, etc., however, because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles if given occasionally, and will call attention to prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the newborn babe. They are especially good for summer because they remove the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Willmar's Medicine Co., Brockville, Ont.

THE THOUGHTFUL SPORTSMAN

Grouse season had started, and in the little Highland hotel lounge some sportsmen sat smoking.

"Yes," said one suddenly, "every time I shoot I send to the 'hospital.'"

"How thoughtful and kind of you."

"Yesterday," he continued, "I shot the gamekeeper."

Mother's Value This Oil

Mothers know this oil. Mothers use it for children and have necessary prompt action in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that it is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Parliamentary Courtesy

Language in the Free State Parliament is Sometimes Lurid

The new Fianna Fall tactics of baiting the Speaker which culminated in the suspension of Mr. de Valero's chief whip, Mr. Aiken, are not likely to increase the prestige of the party. In a letter to the press, Mr. Aiken, in justification of his attack on the Chartist, said that only an openly poisoned English influence could object to have the Speaker described as "a damned hypocrite," "a party hawk," and "a mean skunk." Unfortunately for himself and his colleagues the country is still so enslaved to an alien tradition that it regards as vulgar abuse expressions that in the Gaelic State of Mr. Aiken's vision would apparently be the flower of parliamentary courtesy.—Dublin Correspondence, the New Statesman.

ECZEMA IN ITCHY PIMPLES

Affected Nearly All of Body, Cuticura Heals.

"Eczema broke out in pimples and affected most all body. The pimples were very large, but were red and hard, and then became seated and then scaled off. The pimples were so itchy and burned so much that I could not sleep at night and scratch them. My clothing aggravated the breaking out very much."

"I used Cuticura Soap and Ointment and in four weeks I was completely healed, after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment." (Signed) Frederick A. Zink, Robison's Corner, N. S.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

Little Helps For This Week

"Fear not, believe only."—Luke viii. 50

The chidlike faith that asks not sight.

Why not for wonder or for sign. Believes, because it loves aright. Shall see things greater, things divine. Heaven that gazer shall open wide.

And brightest angels to and from On messages of love shall glide.

Twixt God and Christ below.

—John Keble.

The blessed thing which the Bible calls faith, is a state of the soul in which the things of God become glorious certainties. It requires not how it comes, whether as to Thomas the Doubting, whether through the evidence of the Spirit; as yet the faith of which Christ said, "Blessed are they which have not seen and yet have believed," was a spiritual faith.

—Frederick William Robertson.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Go North For Museum

Dr. R. M. Anderson, of the National Museum, Ottawa, will accompany the 1928 Canadian Arctic expedition on its annual patrol to the posts in the far northern islands. At points of call he will collect zoological material for the Museum and obtain information on points of interest in these regions.

Stony Plain and District.

Miss Rosman, Miss Louise Kroenig, and Messrs John Schuman, Walter Kroenig and Walter Rosman, all of Bruderheim, were Sunday visitors in Stony, at the home of Mr and Mrs Otto Oppertschauser.

Following are the results obtained by pupils of Miss Cecilia Rivest, at the recent exams, by Toronto Conservatory of Music, held in Edmonton : Passed—Alwyn Moses, Martha Schellenberger; passed with honors—Edna Baron, Lily Baron, Mary Miller. Five pupils tried.

The Councillors of Ingraham Municipal District meet in Stony Plain on Friday, Aug. 10th.

Mr Taylor, the new Field Supervisor this season, made a tour of this district Monday.

The attention of the public is called to the fact that dead animals should be handled to the proper place for interment. Complaint has been made that dogs and other animals are dumped in the creek which crosses the baseline. On Saturday a dead dog tied in a gunny sack was found in the water at this point.

The annual Mission Festival will be held on Sunday next, at St Matthew Church (Missouri Synod).

Sporting Notes.

The colored team of ball-tossers which comes from the City to Edmonton Beach every Sunday afternoon are making a regular thing of their wins, having beaten another mixed team out at the Beach on Sunday afternoon. The score was 13 to 11 for the Monroviaans, and when they had finished they realized they had been playing with a good team, as they sure had to extend themselves to nose out the White ball players. The Monroviaans are billed for another game at Edmonton Beach on Sunday next.

The Public Works Dept. at present has a teller on the Baseline, just east of the Grove, two days a week, checking up on the number of vehicles, horse-drawn, trucks and passenger cars, using the highway.

Mr J J Metcalf, the weed inspector for this division, is prosecuting a very vigorous campaign, this season, on the noxious weeds on farms in his precinct.

Mosquitoes at Spruce Grove appear to be more numerous around the railway station than anywhere else, possibly because they like the taste of tourists better than that of permanent local residents. Or it may be merely that they like a change of diet.

Monday evening the Rink building was filled to capacity when the concert put on under the auspices of St Dominic's parish was held. Local talent was assisted by artists from the City, who had motored out for the occasion.

The next Co operative ship-

ping day will be on Tuesday, Aug. 7.

Stony Plain Local, U.F.A.

Stony Plain U. F. A. Local held its regular meeting in the Royal Parlors, Saturday evening, with the president, Mr C R Propst, in the chair, and a good turnout of members present. Secretary Lawrence Zilliox took the minutes of the meeting.

The principal business before the meeting was the purchase of binder twine for the members for the coming harvest time.

Two bids for supplying the twine were before the meeting. After some discussion, the contract was awarded to the United Grain Growers, thru Mr Mair, manager of the U.G.G. elevator at Spruce Grove. The price is \$12.86 for 550-ft. balls, f.o.b. Spruce Grove. This is a much lower price than has obtained for this commodity in some years. The other bid was from a Stony Plain concern, and was at the same price as that of the successful bidder.

This price \$12.86 is available only to members of the U.F.A. Those wishing twine should give their requirements at once to Mr Mair, at the U.G.G. elevator at Spruce Grove.

TENDERS FOR SCHOOL-HOUSE.

SEALED TENDERS will be received by the Board of Trustees of Lucknow School District No. 1946 at the office of the Secretary-Treasurer up to noon on Tuesday, August 1st, 1928, for the erection of a One-roomed Frame School Building after Plan Number C-590.

Plans and Specifications may be obtained from the Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within twenty-four hours, and deposit will then be refunded.

A marked cheque for five per cent of the amount of the tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.
